Rental Research Inc. October 2007

## Change in Company Policy

**This summer has been busy for us. We have had some challenges and we have been slow getting reports back to our clients. We apologize for that. As President/CEO of the company I must take action to maintain our proud 30 years of business.**

**Credit card fraud is out of control resulting in new credit card laws and procedures that have dramatically increased our time to process a single transaction. Credit card fees, which seem to appear out of thin air, are outrageous. We also have new laws and audit procedures to comply with from our data sources.**

**Effective 11/30/2007 we will no longer accept credit card payment for reports or invoices, and we will no longer accept applicant's checks. Payment must be from the Client\User.**

**We are going to concentrate all our energy on getting your report back to you as quickly as possible.**

**Zaran K. Sayre President/CEO**
